Mr. Dave Henderson
Bureau of Land Management Richfield District
150 East 900North
Richfield, Utah 84701

Dear Dave:

I am pleased to report you that we are complete with the remediation and rehabilitation project located adjacent to Georgia-Pacific's Sigurd plant. We have removed all wallboard waste out of public land, and buried small amount of unusable gypsum material on public land, and reclaimed this area as we agreed on our letter to you dated March 8, 1994.

We have followed all your recommendations and guideline as you outlined on your letter dated March 28, 1994 with the exception of seeding the reclaimed area, this portion of the project will take place during fall season.

Again, I would like to thank you for your cooperation and let you know I appreciate your help on this project, and invite you to visit the reclaimed area, and give us your comments.

If you have any question regarding this project please call me at 896-5406

Sincerely,

B. Shajary
